QUANTACAPITAL

Since Inception

WE'VE HELPED INVESTORS REACH THEIR FINANCIAL GOALS

This document is a comprehensive overview of the origin, purpose, journey, and destination of EARLIERPROFIT. The paper provides information to anyone looking to become a partner or investor with EARLIERPROFIT, such that they understand the values and integrity held by the investment company.

The origin of this company is simply illustrated with the need to solve the problems most investors (and investment companies) faced at the time of inception. The purpose is thus rooted in the origin, and is explicitly introduced in the company's Vision and Mission statements found in this document and on the company's website. The journey has been highly progressive so far, with happy and satisfied clients. Even when the odds stood against us, our insurance policies ensured that our investors didn't have to suffer unnecessary losses. Our destination is that point where everyone who joins our clientele becomes convinced that we are that friendly, accessible and result oriented company that keeps to its word.

This whitepaper is updated as we make significant strides as a company and thus may require you to also speak with our customer care unit, marketers or any authorized agent, partner or member of the company. We look forward to having you onboard.

QUANTACAPITAL

ABOUT US

QUANTACAPITAL COMPANY is a revitalized investment company, with revolutionizing investment system that work closely and keenly with a great number of investors across the world. Established on 29th September 2014, with the head office at 15 Merrion Sq. North Dublin 2. D02YN15. **QUANTACAPITAL COMPANY** is an Ireland legal business, registered and approved by the Ireland Company Office with Ireland Business Name.

QUANTACAPITAL COMPANY limited is an Investment Platform for investors on cryptocurrency. We empower lots of clients around the world, creating a less tasking but reliable stream of income to support their lives and grow their businesses with our up to date technology, award-winning support, and diversified approach to cryptocurrency. Founded in 2014 and headquartered in Bangkok Thailand, Quantacapital limited is 100% reliable and highly profitable.

HOW TO EARN WITH US

The model is simple: using human and mathematical models, we spot trade opportunities on commodities such as agric, gold, diamond, natural gas and so many others, as well as cryptocurrencies. Then the investment made by clients is distributed by quota into these assets, using artificial intelligence. The profit generated is distributed to investors with a valid investment plan, and according to the investment package enrolled in. Trade calls are backed by other stakes to bet the market flotation in order to avoid loss to the clients as minimum as possible, where this returns are been done daily.

QUANTACAPITAL

We use a kind of margin known as PAMM (percent allocation management module) which makes sure these profits are always allocated. If any losses occur, it is managed by the company not its investor (thanks to our internal investment insurance policy). This means the investors always get their allocated profit. This is an apt example of a win-win approach for all clients.

Investors are meant to select a package where this generated profits are distributed based on what is invested (higher investment plans attract higher returns on investment), withdrawals are made weekly or monthly, and are paid out in cryptocurrencies (bitcoin).

QUANTACAPITAL

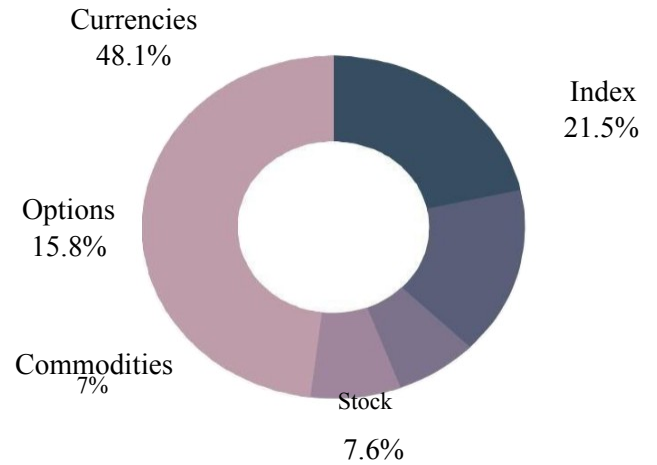

PORTFOLIO ASSETS DISTRIBUTION

Identifying meaningful investment opportunities in the financial market is getting more challenging. Most investors go through a series of advice and still miss out on the ideal assets distribution for a

Profitable portfolio. So, we took the guess out of the way and put the work on our shoulders. We designed a portfolio structure that makes the investment both secure and profitable at the same time.

We identify and analyze emerging trends in the markets. Then we put together the market dynamics, regulations and strategies that are constantly impacting the markets, in order to obtain optimum output.

Considering all these, we design investment classes to adapt to client's goals at the point of entry. That's why each investor feels like the only one we have. We make it all about the investor.

QUANTACAPITAL

BENEFITS OF INVESTING WITH US

The benefits of trading with **QUANTACAPITAL** include:

- Complete transparency of all transactions.
- Each trader is in control of his trading account.

OUR HISTORY: The Idea of Quantacapital was conceived in the early days of Bitcoin(Cryptocurrency) invention. Our MR LEO EPPINGER has been a successful FOREX trader several years before the invention of Bitcoin(Cryptocurrency), he ventured into it as soon as came to limelight but because of the high volatility of Cryptocurrency unlike Fiat currency his trade were highly unsuccessful at first. He understood that a deeper study of this new invention can reveal skills in harnessing the opportunities which he has envisaged in this new world of Cryptocurrency. He partnered with two FOREX experts that were his friend and they successfully deciphered a reliable way to trade profitably on a very high volatile currency - BITCOIN.

OUR VISION: We hope to through our services grant financial freedom to as much people as we can reach . Our journey has been fruitful so far and we are very optimistic that we will affect more lives positively through our relentless effort in improving our services..

OUR MISSION: As a leading global market maker, **QUANTACAPITAL** is to spread the benefits of cryptocurrency trade as wide as we can. We hope to make everyone a beneficiary of our in depth knowledge of cryptocurrency by standing in between to help our investor get the best out of it. You do not need any knowledge of how cryptocurrency works before you can start investing because we are here to trade for you. Relax and let your money work for your.

QUANTACAPITAL

Take advantage of proven solutions to achieve cryptocurrency success

Our roots go back to 2014 - right around the beginning of the revolution that would become known today as Bitcoin. Following the boom of this industry, we quickly began to see some of the common issues that were present when people tried to become involved. We took this need into account along with our own personal ambition to develop an integrated platform that was able to both satisfy the needs of investors and meet their expectations with sufficient returns on their investments. Since then, we have maintained our focus as a company that looks towards the future and transforms the opportunities offered to our valued clients.

QUANTACAPITAL

RISK MANAGEMENT AND SECURITY OF FUNDS

Our first step towards risk management is identification and assessment of the risks involved in our investment strategies, which in this case involves the following: loss of investment capital through mismanagement of funds, losses due to general market downtrend, losses due to cyber-attacks and system failures.

Upon successful identification and assessment we employ the following strategies:

-Security: Our system is developed with the most sophisticated technology you can find anywhere. It is highly secured and safe.

-Speed: The use of small data language makes our platform one of the fastest if not the fastest in processing data and transactions.

-Two Level Security: For a safer experience on our platform, we have included a second level identification for our users. Please activate yours.

-Diversified Means: Our risk management approach is investing in every sector of humanity in order to give 100% guarantee to our investors.

QUANTACAPITAL

In conclusion, we intend to get to the top of the crypto investment market and maintain our position against all odds for as long as it's humanly possible. Our teams of experts are constantly working towards the development of new and advanced trading strategy for consistent guaranteed profits.

FOREX

Forex trading is the act of buying or selling currencies. Banks, central banks, corporations, institutional investors and individual traders exchange foreign currency for a variety of reasons, including balancing the markets, facilitating international trade and tourism, or making a profit.

CRYPTOCURRENCY

With cryptocurrency being young, and the market being historically volatile, there is no yes or no answer about the wisdom of investing in cryptocurrency. It is with this in mind that we cover some pros and cons and friendly (but not professional) advice.

STOCKS

Invest in commodity-related stocks. Buying stocks to relate to certain commodities is a way to bet on the value of a commodity without incurring all of the risk of futures trading. Commodity investments tend to attract more investor attention when inflation fears start to mount.
